UGC NET: Psychology Previous Year Paper 2022 – Solutions at Doorsteptutor. Com

Q. 1. At which difficulty level (pass proportion) , the item can make the highest differentiation?

- a. 0.35
- b. 0.50
- c. 0.75
- d. 0.25

Q. 2. The process by which we translate sensory information into a meaningful representation is known as_____

- a. Semantic encoding
- b. Episodic decoding
- c. propositional representation
- d. Pragmatic representation

Q. 3. Which of these is not one of the gestalt principle of visual organization?

- a. Similarity

- b. Proximity
- c. lateralization
- d. Common fate

Q. 4. Positivist paradigm subscribes to

- a. social construction of reality
- b. Observer independent reality
- c. Phenomenological analysis of reality
- d. Maintaining positivity in research

Q. 5. Computer assisted testing is principally based on _____

- a. Item response theory
- b. Efficiency of modern computers
- c. Emphasis on internal consistency
- d. Compatibility between manual and computerized scoring

Q. 6. Which of the following are major sources of stressors linked to coronary heart disease?

- 1. Catastrophes
- 2. Hassles
- 3. Major life events
- 4. Type A personality
- 5. Low Motivation

- a. 1,2, 3 and 4 only
- b. 1,2, 3. and 5 only
- c. 2,3 and 4 only
- d. 1,2 and 5 only

Q. 7. Identify the plausible logic for the introduction of deviation IQ

- a. Level of IQ varies with age
- b. Ratio I_Q is not measured on interval scale
- c. SD of ratio IQ varies from scale to scale
- d. Comparison of ratio IQ at different age levels is not possible as SD of IQ is not constant

Q. 8. The somatic nervous system functions with the help of _____ nerves.

- a. Cranial
- b. Spinal
- c. Cranial and Spinal
- d. Ganglion neurons and cranial

Q. 9. Choose the health promoting lifestyle factors from the given list

1. Exercising occasionally
2. Engaging only in safe and protected sex
3. Maintaining weight
4. Eating balanced meals
5. Wearing seat belts and helmets

Choose the correct answer from the option given below:

- (a) 1,3 and 4 only
 (B) 2,4 and 5 only
 (C) 3 and 4 only
 (D) 1 and 4 only

Q. 10. Which of the following are not the attributes of mindfulness?

1. Patience
2. Judging
3. Trust
4. Acceptance
5. Attachment

Choose the correct answer from the option given below:

- (A) 1 and 2 only
 (B) 3 and 5 only
 (C) 2 and 5 only
 (D) 2 and 3 only

Q. 11. Which component of the psychoneuroimmunology system is not affected by glucocorticoids?

- a. Posterior Pituitary
- B. T-Cells
- C. B-Cells
- D. Hippocampal Neurons

Q. 12. Choose the correct answer from the options given below.

List I	List II
A. Self determination	i. D. O. Hebb
B. Contact comfort	ii. Hans Selye
C. Cell assembly	iii. Edward Deci

D. General adaptation syndrome	iv. Henry Harlow
<i>The Correct Answer from the Options Given below</i>	

- (A) A-III, B-IV, C-II, D-I
- (B) A-III, B-IV, C-1, D-II
- (C) A-II, B-1, C-II, D-IV
- (D) A-I, B-II, C-IV, D-II

Q. 13. Which of the following about acculturation is NOT correct?

1. It involves sticking to one's cultural beliefs
2. It involves displaying prejudice towards people from different cultures
3. It involves adopting new ways of behaving
4. It involves balancing between values of two different cultures

Choose the correct answer from the options given below:

- (A) 3 only
- (b) 1 and 2 only
- (C) 1,2 and 3 only
- (D) 4 only

Q. 14. Diffusion of responsibility is a hypothesized cause of:

1. Identity formation
2. Prosocial behaviour
- 3-Bystander effect
4. Compliance

Q. 15. Systematic desensitization involves

1. Aversion therapy
- 2-Reciprocal inhibition
3. Anxiety hierarchy
4. Time out

Choose the correct answer from the options given below:

- (A) 1 and 2 only
- (B) 2 and 4 only
- (C) 2 and 3 only
- (D) 1 and 4 only

Q. 16. When an experimenter wishes to ensure equal representation of a highly correlated variable with dependent variables at all levels of independent variable,

he/she should use design?

- (A) Repeated measures
- (B) Randomized groups
- (C) Latin Square
- (D) Randomized block

Q. 17. The mean can be misleading if a distribution has _____

1. Marked skewness
2. Large number of scores
3. Few extremely high valued scores
4. Small number of scores
5. Few extremely low valued scores

Choose the correct answer from the options given below:

- (A) 1,2 and 4 only
- (B) 3,4 and 5 only
- (C) 1,3 and 5 only
- (D) 2,3 and 4 only

Q. 18. The central aspect of rational thinking involves:

1. Deduction
2. Induction
3. Conduction logic
4. Reduction approach
5. Paradigm

Choose the correct answer from the options given below:

- (A) 1 and 4 only
- (b) 1 and 2 only
- (C) 2 and 4 only
- (D) 4 and 5 only

Q. 19. Social constructionist approach would allow cultural

- (A) Invariance
- (B) Homogeneity
- (C) Hegemony
- (D) Diversity

Q. 20. Which of the following hypothalamic nuclei were considered as hunger regulator?

- A. Supraoptic nucleus
- B. Ventromedial hypothalamus
- C. Medial
- D. Lateral
- E. Paraventricular

Choose the correct answer from the options given below:

- (A) D only
- (B) and C only
- (C) B and D only
- (D) A and E only

Q. 21. The type of psychological tests in which validation criterion is the performance in specialized training is

- (A) Achievement
- (B) Attitude
- (C) Aptitude
- (D) Intelligence

Q. 22. Group think may occur when:

1. Members feel they cannot fail
2. Members' motivation is low
3. Members do not express opinions that differ from their own group members.
4. Members stereotype their enemy as weak, stupid or unreasonable.

Choose the correct answer from the options given below:

- (A) 1,3 and 4 only
- (B) 1,2 and 3 only
- (C) 2,3 and 4 only
- (D) 1,2 and 4 only

Q. 23. What are the purposes of research?

1. Explaining phenomenon
2. Making discovery
3. Fulfilling a gap in knowledge
4. Attempt to resolve contradictory findings
5. Making an invention

Choose the correct answer from the options given below

- (a) 1 and 3 only

(B) 1,2 and 3 only

(c) 1,3 and 4 only

(D) 2,3 and 5 only

Q. 24. Identify the theories who has stated the following:

“When we have passed beyond individualizing, then we shall be real persons. Ego was the helper; ego is the bar” .

(A) Carl Rogers

(B) Abraham Maslow

(C) Sri Aurobindo

(D) Carl Jung

Q. 25. Identify the posterior pituitary hormones.

A. Thyrotropin

B. Follicle stimulating hormone

C. Oxytocin

D. Luteinizing hormone

E. Vasopressin

Choose the correct answer from the options given below:

(A) C only

(b) B only

(C) A and B only

(D) C and E only

Q. 26. By what symbol the standardized regression coefficient is usually depicted?

A.

B. b

C. R

D. K

Q. 27. Identify the indices of item validity

A. item-inter correlation

B. item-total correlation

C. Item pass proportion

D. Item criterion correlation

Choose the correct answers from the options given below:

(A) A and D only

(B) A and C only

(C) B and D only

(D) B, C and D only

Q. 28. Indigenization of research was proposed for

(A) The promotion of native culture

B. overcoming difficulty in establishing reliability

C. Overcoming difficulty in establishing phenomenon in a given culture

D. Ensuring objectivity in research

Q 29.

List I (Approaches to Personality)	List II (Key Features)
A. Psychodynamic	I. Learned Drives
B. Humanistic	II. Social learning
C. Cognitive	III. Inner forces
D. Behavioristic	IV. Self-actualization

Table of List I (Approaches to Personality) and List II (Key Features) Table of List I (Approaches to Personality) and List II (Key Features)

Choose the correct answer from the options given below:

(A) A-III, B-I, C- II, D-IV

(B) A-I, B-II, C-III, D-IV

(C) A-III, B-IV, C-II, D-I

(D) A-II, B-IV, C-III, D-I

Q. 30. _____ is a measure of dispersion that considers all the scores

(a) Range

(B) Quartile deviation

(C) Average Deviation

(D) Interquartile range

Q. 31. The critical perspective on research does not subscribe to the view that

(A) Research has to smash myths and empower people to change society

(B) Reality is stable and subject to natural laws

(C) Research has to be informed by a theory that unveils illusion

(D) Research must expose false beliefs that hide power and objective conditions

Q. 32. Qualitative research can follow several approaches to knowledge. Identify one which is contrary to the assumptions of qualitative research

- (A) Realist
- (B) Positivist
- (C) Social Constructionist
- (D) Phenomenological

Q. 33. In a normally distributed group, an examinee one SD above the mean. What shall be his/her percentile score?

- (A) 34
- (B) 68
- (C) 84
- (d) 51

Q. 34. Which one of the following statements does not apply to normal probability curve?

- (A) It is bilaterally skewed
- (B) It is bell shaped
- (C) Its skewness is zero
- (D) Its kurtosis is zero

Q. 35. A researcher using a group of ten subjects under four conditions repeatedly, what will be the degree of freedom for error terms?

- (A) 9
- (B) 27
- (C) 36
- (D) 39

Q. 36. Psychological research does not allow one of the following activities:

- (A) Debriefing the participants
- (B) Maintaining confidentiality
- (C) not granting permission to withdraw from the research process
- (D) Obtaining consent to conduct research

Q. 37. As per threshold hypothesis, there exists

- (A) Modest positive relationship between intelligence and creativity when IQ is above the threshold.
- (B) Modest positive relationship between intelligence and creativity when IQ is below the threshold.
- (C) Weak positive relationship between intelligence and creativity when IQ is below the threshold.
- (D) Weak positive relationship between intelligence and creativity when IQ is above the threshold.

Q. 38. Myelin Sheath which insulates most axons in CNS, is produced by

- (A) Oligodendrocytes
- (B) Schwann cells
- (C) Microglia
- (D) Astrocytes

Q. 39. _____refers to the capacity of the nervous system to perceive a stimulus presented at an intensity that is below threshold

- (A) Unconscious processing
- (B) Stimulus adaptation
- (C) Subliminal perception
- (D) Supraliminal sensation

Q. 40.

List (Concepts)	List II (Process)
A. Heuristics	I. Breaking whole into manageable part
B. Analysis	II. An existing model for representing a problem
C. Synthesis	III. Mean-end analysis
D. Mental Set	IV. Putting together elements into useful whole

Table of List (Concepts) and List II (Process) Table of List (Concepts) and List II (Process)

Choose the correct answer from the options given below.

- (A) A-II, B-III, C-IV, D-I
- (B) A-III, B-I, C-IV, D-II
- (C) A-IV, B-II, C-III, D-I
- (D) A-III, B-I, C-II, D-IV

Q. 41. Gardner's theory of Intelligence posits that a person who is introspective, self-reflective, understands the strengths and weakness tends to have a higher level of

- (A) intrapersonal intelligence
- (B) Naturalistic intelligence
- (C) Interpersonal intelligence
- (D) Linguistic intelligence

Q. 42. The largest structure in the Limbic System is the_____

- (A) Hippocampus
- (B) Cingulate gyrus

- (C) Fornix
- (D) Amygdala

Q. 43. Name the test that can verify the hypothesis that two related groups have been drawn from the same population.

- (A) Wilcoxon signed rank test
- (B) Mann-Whitney U-test
- (C) Kruskal-Wallis test
- (D) Friedman's test

Q. 44. The fourth force in counseling is indicated by which approach?

- (A) Humanistic
- (B) Solution focussed
- (C) Multicultural
- (D) Indian

Q. 45. The phenomenon of object permanence occurs in which stage of cognitive development?

- (A) Sensorimotor
- (B) Preoperational
- (C) Concrete operational
- (D) Formal operational

Q. 46. The linguistic relativity hypothesis states that

- (A) Language depends on thought processes
- (B) Thinking is shaped by language.
- (C) Language and thought follow independent pathways of development.
- (D) Language and thought are related in an interdependent fashion.

Q. 47. Crystallized intelligence includes

- (A) Learned knowledge and skills
- (B) Novel ideas
- (C) Divergent thinking
- (D) Emotional skills

Q. 48. Which one of the following does not describe the state of flow?

- (A) Loss of self
- (B) Internal talk
- (C) Oneness , how
- (D) Clarity of action

Q. 49. _____ does not explain our obeying unjust commands of authority.

- (A) Genetic endowment to Obedience
- (B) ingrained habit
- (C) Normative influence
- (D) Informational influence

Q. 50. _____ is an impairment of language functioning caused by damage to the brain.

- (A) Agraphia
- (B) Amnesia
- (C) Aphasia
- (D) Autism

Q. 51. An EEG record during NREM sleep shows _____ waves.

- (A) Delta
- (B) Alpha
- (C) Theta
- (D) Beta

Q. 52. Psychologists define _____ as a long-lasting change in behaviour induced by experience.

- (A) Education
- (B) Maturation
- (C) Learning
- (D) Creativity

Q. 53. Which theory includes environmental mastery as one of the dimensions of well-being?

- (A) Keyes mental health continuum
- (B) PERMA model of well being
- (C) Ryff's theory of psychological well being
- (D) Eudaimonic theory of happiness

Q. 54. The human retina contains approximately _____

- (A) Six million rods
- (B) One hundred twenty million cones
- (C) Six million cones and 120 million rods
- (D) Six million rods and 120 million cones

Q. 55. The first response that people typically express when frustrated is to:

- (A) Try again
- (B) Get angry
- (C) Give up

(D) Be creative

Q 56.

List I	List II
A. Actualizing Tendency	i. Organism continuously weighs the experiences in terms of its ability to satisfy
B. Subjective Frame of reference	ii. Organism attempts to fulfill the inherent potentials
C. Experiencing	iii. Perceptual frame of reference of the organism
D. Organismic Valuing Process'	iv. Receiving the impact of external and internal sensations at the moment

Rogers, Everyone Has a Deep-Seated Need to Achieve Self-Actualization

Choose the correct answer from the options given below.

(A) A-IV, B-III, C-1, D-II

(B) A-II, B-III, C-IV, D-I

(C) A-III, B-I, C-II, D-IV

(D) A-I, B-III, C-II, D-I

Q. 57. What is the median of the scores given below?

15, 8, 30, 12, 5, 40, 30, 20

(A) 8.50

(B) 17.50

(C) 20

(D) 15

Q. 58. One of the primary objectives for developing first Wechsler Intelligence Scales was to

(A) Meet the need of an effective adult scale

(B) Provide a test with increased face validity

(C) Develop widely acceptable scale for children

(D) Have scale with emphasis on speed component

Q. 59. Which of the following statements reflects the argument made by cognitive social learning theory?

(A) Self - regulation is more important than advanced learning

(B) Social construction is the way children learn morality

- (C) Humans since long had capacity to develop moral behaviour
 (D) Humans are born with innate disposition shaped by our genes

Q. 60. Today employees are required to work in teams as it is believed that performance will be better in teams. This is because in a team:

- (A) Social Facilitation occurs
 (B) Social Loafing occurs
 (C) Motivation is low
 (D) People are more attentive

Q. 61. The 'Robbers Cave' experiment by Sheriff showed the value of _____ in reducing prejudice.

- (A) Contact
 (B) Superordinate goals
 (C) Subordinate goals
 (D) Stereotypes

Q. 62 A researcher interested to verify the effect of three independent variables on two dependent variables, shall use _____ for data analysis.

- (A) ANOVA
 (B) ANCOVA
 (C) MANCOVA
 (D) MANOVA

Q 63.

List I (Neurotransmitters)	List II (Types)
A. Glutamate	I. Catecholamine
B. Dopamine	II. Amino acid
C. Acetylcholine	III. Indolamine
D. Serotonin	IV. Quaternary amine

Table of List I (Neurotransmitters) and List II (Types) Table of List I (Neurotransmitters) and List II (Types)

Choose the correct answer from the options given below.

- (A) A-IV, B-III, C-II, D-I
 (B) A-III, B-IV, C-I, D-II
 (C) A-I, B-II, C-III, D-IV
 (D) A-II, B-I, C-IV, D-III

Q. 64. What type of question the following is, in a questionnaire?

“Why did you go to cinema last night?”

- (A) Knowledge
- (B) Motivation
- (C) Opinion
- (D) Factual

Q 65.

List I	List II
A. A health strategy that focuses on providing education materials to people	I. Social Support
B. Having a group of friends can buffer the risks posed by chronic stress	II. Hassles
C. A person exposed to severe stressor may experience that events prevention	III. Primary prevention
D. Minor annoying events that can add to diminish health	IV. Post-traumatic stress disorder

Primary Prevention Refers to Protective Measures That Stop Illness Primary Prevention Refers to Protective Measures That Stop Illness

Choose the correct answer from the options given below.

- (A) A-II, B-III, C-IV, D-I
- (B) A-III, B-I, C-IV, D-II
- (C) A-I, B-III, C-II, D-IV
- (D) A-IV, B-II, C-III, D-I

Q 66.

List I	List II
A. Z score	I. $M = 50, SD = 10$
B. Stanine	II. $M = 5.5, SD = 2$
C. T score	III. $M = 5, SD = 2$ (approx.)
D. Sten	IV. $M = 0, SD = 1$

A Z-Score is Measured in Units of the Standard deviation

Choose the correct answer from the options given below.

- (A) A-IV, B-III, C-I, D-II
- (B) A-IV, B-1, C-III, D-II
- (C) A-I, B-II, C-IV, D-III
- (D) A-II, B-III, C-1, D-IV

Q. 67. Trace the sequence of events followed by the exposure to prolonged stress

- A. Glucocorticoids are released by adrenal cortex
- B. Lymphocytes are activated
- C. Hippocampal Cells get degenerated
- D. Anterior pituitary releases ACTH
- E. T cells and B cells get activated

Choose the correct answer from the options given below

- (A) A, D, E, B, C
- (B) B, C, D, E, A
- (C) D, A, B, E, C
- (D) C, B, A, E, D

Q. 68. Trace the correct sequence of the components of auditory information processing

- (A) The inferior colliculus receives the information
- (B) Cochlear nucleus and olivary nuclei receive the information
- (C) The medial geniculate nucleus receives the information
- (D) The organ of corti sends information to the brain
- (E) Primary auditory cortex receives the information

Choose the correct answer from the options given below

- (A) D, A, C, B, E
- (B) E, C, A, B, D
- (C) D, B, A, C, E
- (D) E, A, B, C, D

Q 69.

List I (theory of Attention)	List II (Researcher)
A. Early Selection	I. Deutsch & Deutsch
B. Attenuation	II. Cherry

C. Late Selection	III. Johnson and Heinz
D. Multi model	IV. Triesman

Table of List I (Theory of Attention) and List II (Researcher) Table of List I (Theory of Attention) and List II (Researcher)

Choose the correct answer from the options given below.

- (A) A-II, B-I, C-IV, D-III
- (B) A-II, B-IV, C-I, D-III
- (C) A-I, B-IV, C-II, D-III
- (D) A-IV, B-1, C-III, D-II

Q. 70. Trace the pathway of visual information processing

- A. Geniculate nuclei send information to striate cortex
- B. Information reaches to extrastriate cortex
- C. Retina sends to lateral geniculate nucleus
- D. Information reaches to inferior temporal cortex and parietal cortex
- E. Stimulation of visual receptor

Choose the correct answer from the options given below

- (A) C, D, E, A and B
- (B) E, C, A, B, D
- (C) D, B, A, C, E
- (D) E, A, C, B, D

Q. 71. According to Bhagavad Gita the spiritual journey towards self-realization and attainment of peace involves movement across several stages. Identify the correct order

- A. Tyaga
- B. Dhyana
- C. Abhyasa
- D. Gyana
- E. Shanti

Choose the correct answer from the options given below

- (A) D, B, A, C, E
- (B) C, D, B, A, E
- (C) C, B, D, A, E
- (D) B, C, A, D, E

Q. 72. Victor Frankl stated that the survivors of Nazi concentration camps could do so because they hanged on to a sense of meaning and purpose in their life. Which psychotherapy is based on this?

- (A) Well-being therapy
- (B) Logotherapy
- (C) Positive psychotherapy
- (D) Acceptance and Commitment therapy

Q 73.

List I (Theories)	List II (Propositions)
A. Realistic Conflict	I. Identity is formed by social comparison, categorization and construction of self - identity.
B. Relative Deprivation	II. Competition for scarce resources results in intergroup tensions.
C. Social Identity	III. Comparison of oneself to others in ways that raise one's self-esteem.
D. Social Comparison	IV. Feeling of getting less than what one is entitled to.

Table of List I (Theories) and List II (Propositions) Table of List I (Theories) and List II (Propositions)

Choose the correct answer from the options given below.

- (A) A-II, B-IV, C-I, D-III
- (B) A-I, B-II, C-III, D-IV
- (C) A-I, B-III, C-II, D-IV
- (D) A-IV, B-II, C-1, D-III

Q 74.

List (Process)	List II (Description)
A. Flourishing	I. Capacity to appreciate and enhance positively experiences
B. Savouring	II. Preventing stress from happening in the first place
C. Proactive coping	III. A state of optimal human functioning
D. Languishing	IV. A state of feeling emptiness

Table of List (Process) and List II (Description) Table of List (Process) and List II (Description)

Choose the correct answer from the options given below.

- (A) A-I, B-III, C-II, D-IV
- (B) A-III, B-I, C-II, D-IV
- (C) A-I, B-II, C-IV, D-III
- (D) A-II, B-I, C-III, D-IV

Q. 75. The 'Product' approach to creativity primarily focuses on

- (A) What type of people are creative?
- (B) How does environment shape creativity?
- (C) How do people arrive at creative ideas?
- (D) What is considered to be creative?

Q 76.

List (Disorder name)	List II (Category)
A. Autism	I. Neurocognitive
B. Alzheimer	II. Elimination
C. Bulimia Nervosa	III. Neurodevelopmental
D. Encopresis	IV. Eating

Table of List (Disorder Name) and List II (Category) Table of List (Disorder Name) and List II (Category)

Choose the correct answer from the options given below.

- (A) A-III, B-I, C-IV, D-II
- (B) A-I, B-III, C-II, D-IV
- (C) A-I, B-II, C-IV, D-III
- (D) A-III, B-II, C-IV, D-I

Q. 77. Arrange the following tests in the increasing order of structuredness

- A. WAT
- B. TAT
- C. Rorschach
- D. MMPI

Choose the correct answer from the options given below

- (A) B, C, A, D
- (B) D, A, B, C

(C) C, A, BD

(D) C, B, A, D

Q. 78.

List I (Psychologists)	List II (Key Concept)
A. C. L. Hull	I. Need
B. S. Freud	II. Drive
C. H. Murray	III. Instinct
D. D. C. McClelland	IV. Fantasy

Table of List I (Psychologists) and List II (Key Concept) Table of List I (Psychologists) and List II (Key Concept)

Choose the correct answer from the options given below.

(A) A-II, B-III, C-I, D-IV

(B) A-III, B-II, C-IV, D-I

(C) A-I, B-IV, C-III, D-II

(D) A-IV, B-I, C-II, D-III

Q. 79. Find the correct sequence of events in reference to James-Lange theory of emotions

A. The feedback received constitutes feeling of emotions

B. The emotion producing situation is interpreted by the cortex

C. The brain receives sensory feedback of responses occurring in the body

D. The cortex triggers changes in peripheral nervous system

E. The muscular and visceral changes occur in the body

Choose the correct answer from the options given below

(A) B, D, E, C, A

(B) A, D, C, E, B

(C) D, B, E, C, A

(D) B, D, C, E, A

Q. 80. A bell was sounded by Pavlov and then two minutes later a plate of meat powder was presented to the dog. We would term this arrangement as

Conditioning.

(A) Delay

(B) Trace

(C) Backward

(D) Forward

Q 81.

List I (Type of Cell)	List II (Function)
A. Antibody	I. Cell mediated immunity
B. Phagocytes	II. Consume and destroy microorganism
C. T cells	III. Antibody mediated immunity
D. B Cells	IV. Distinguishes foreign cell

Table of List I (Type of Cell) and List II (Function) Table of List I (Type of Cell) and List II (Function)

Choose the correct answer from the options given below.

- (A) A-IV, B-I, C-II, D-III
- (B) A-IV, B-II, C-I, D-III
- (C) A-II, B-IV, C-I, D-III
- (D) A-IV, B-III, C-II, D-I

Q. 82. Given below are two statements

Statement I: Life-course-persistent antisocial behaviour occurs during adulthood.

Statement II: Adolescence-limited antisocial behaviour occurs due to maturity gap.

In light of the above statements, choose the most appropriate answer from the options given below

- (A) Both Statement I and Statement II are correct
- (B) Both Statement I and Statement II are incorrect
- (C) Statement I is correct but Statement II is incorrect
- (D) Statement I is incorrect but Statement II is correct

Q. 83. The process of Chunking permits us to

- (A) Extend the duration of sensory memory
- (B) Transfer information to LTM
- (C) Expand the capacity of our STM
- (D) Expand the capacity of our LTM

Q. 84. Emotionally arousing (traumatic) stimuli have also found to lead to amnesia, even though no physical damage to the brain structure related to memory have occurred. This refers to

- (A) Non-verbal cue utilization
- (B) Retrograde Amnesia

(C) Confabulation

(D) Flashbulb memory repression

Q 85.

Statement I: Stress is experienced in relatively ordinary life conditions

Statement II: Any life event that requires people to change, adapt or adjust can result in stress.

In light of the above statements, choose the correct answer from the options given below:

(A) Both Statement I and II are true

(B) Both Statement I and Statement II are false

(C) Statement I is true but Statement II is false

(D) Statement I is false but Statement II is true

Q 86.

Statement I: Being marginalized also means you are discriminated.

Statement II: Marginalization and discriminations are not related.

In light of the above statements, choose the most appropriate answer from the options given below:-

(A) Both Statement I and Statement II are correct

(B) Both Statement I and Statement II are incorrect

(C) Statement I is correct but Statement II is incorrect

(D) Statement I is incorrect but Statement II is correct

Q 87.

Assertion A: Counsellors generally follow eclectic approach to counselling suitable to specific context.

Reason R: When counsellor and client differ in their cultural background, it requires multicultural counselling skills.

In light of the above statements, choose the correct answer from the options given below

(A) Both A and R are true and R is the correct explanation of A

(B) Both A and R are true but R is NOT the correct explanation of A

(C) A is true but R is false

(D) A is false but R is true

Q. 88

Assertion A: Drive reduction was proposed to explain the actions of people taken to reduce tension created by needs.

Reason R: Human body maintains balance in its physical status. This is called homeostasis

(A) Both A and R are true and R is the correct explanation of A

(B) Both A and R are true but R is NOT the correct explanation of A

(C) A is true but R is false

(D) A is false but R is true

Q 89.

List I	List II
A. Changes in thoughts over the life span	I. Cognitive perspective
B. Personality and hidden motives of person	II. Psychodynamic perspective
C. Brain function as mediating behaviour	III. Developmental perspective
D. Thoughts of a person in a given situation	IV. Biological perspective

Match The List I and List II Match The List I and List II

Choose the correct answer from the options given below.

(A) A-I, B-IV, C-III, D-II

(B) A-III, B-II, C-IV, D-I

(C) A-II, B-III, C-I, D-IV

(D) A-IV, B-I, C-II, D-III

Q. 90. Sensation seeking among adolescents is best described by

(A) Low self-regulation

(B) Looking for novel experience

(C) Risk taking

(D) Socializing

Q. 91. Identify the experimental design used

(A) Randomized group

(B) Single factor

(C) Multifactor

(D) Repeated Measures

Q. 92. What type of independent variables were included?

(A) Both were fixed factors.

(B) Both were random factors.

(C) Illumination level was a fixed factor while the duration was a random factor.

(D) Illumination level was a random factor while the duration was a fixed factor.

Q. 93. How many hypotheses the used design will allow to be verified?

- (A) One
- (B) Three
- (C) Four
- (D) Seven

Q. 94. Find the degree of freedom for the error term

- (A) 119
- (B) 117
- (C) 2
- (D) 114

Q. 95. Identify the variables that were controlled by the experimenter.

- (A) Ambient illumination and duration of signal
- (B) Gender and level of illumination of the signal
- (C) Gender and ambient illumination
- (D) Frequency of signal and level of illumination

Q. 96. Name the Psychologist who led this research

- (A) Milgram.
- (B) Zimbardo
- (C) Asch
- (D) Sheriff

Q. 97. What went wrong with the experiment because of which it was terminated on the 6th day?

- (A) The experiment was boring
- (B) The university administration asked the researchers to stop the study
- (C) The prisoners felt upset and humiliated
- (D) The prisoners and guards became friends

Q. 98. The experiment:

- (A) Was highly appreciated
- (B) Was highly criticized
- (C) Resulted in the development and recognition of ethical guidelines
- (D) Resulted in the study of behaviour of guards

Q. 99. This study shows that we behave according to our

- (A) Beliefs
- (B) Attitudes
- (C) Roles
- (D) Background

Q. 100. This experiment is known as

- (A) Obedience experiment
- (B) Stanford prison experiment
- (C) False memory experiment.
- (D) Michigan experiment
